

THE BEST OF GOLF CART BAGS

Each year, manufacturers and consumers alike anxiously await the release of Golf Digest's annual Hot List issues. These no-holds-barred reviews of the industry's latest golf gear are the result of months of arduous product testing, putting gear through grueling feats to determine which ones are worthy of a coveted Gold or Silver Award. Here are a few that made that list.

DATREK - ASSAULT

The 2010 collection includes a diverse selection of cart and stand bags that accommodate the needs of all golfers, whether walking the course and carrying, using a push cart or riding in a cart.

"The Datrek brand has had a long history of innovation and success. We are excited to introduce a collection of cart and stand bags that combine style with functionality, and serve to complement our existing portfolio of innovative golf bag offerings," said Craig Ramsbottom, President, Dynamic Brands.

The abundance of design features offers golfers the ultimate in functionality, style and convenience. Headlining the 2010 line is the Assault, an extreme performance cart bag that features a 10" top with 14 individual full-length dividers, as well as two external putter wells with noise reducing rubberized grips. Equipped with nine pockets that provide ample storage options, the Assault is outfitted with two crush resistant fleece lined accessories/valuable pockets, an oversized front ball pocket -- designed for embroidery -- a quick grab magnetic ball pocket, and an easy access built-in insulated cooler pocket for added convenience.

All golf bags in the collection are constructed with 420D weather and tear resistant polyester. The Assault cart bag is offered in Black, Red, Copper and Hunter Green.

MSRP \$179.95

THE BEST OF GOLF CART BAGS

Each year, manufacturers and consumers alike anxiously await the release of Golf Digest's annual Hot List issues. These no-holds-barred reviews of the industry's latest golf gear are the result of months of arduous product testing, putting gear through grueling feats to determine which ones are worthy of a coveted Gold or Silver Award. Here are a few that made that list.

BAGBOY - REVOLVER PLUS CART BAG

The Revolver Plus features Bag Boy's revolving design, whereby the entire center tube component of the bag rotates 360 degrees allowing golfers to easily turn the bag's top for quick access to each club in the bag. Also highlighting the Revolver Plus is Bag Boy's patented Clip-Lok technology, which incorporates 14 individual full-length divider sleeves protecting all golf clubs by holding them firmly in place from the top of the bag to the bottom. The ultimate in club protection, Clip-Lok technology keeps club heads and shafts from banging together whether the bag is carried, pushed on a walking cart or transported on a riding cart. Even turned upside down, the clubs in the bag will not move.

"Because our Revolver bags have become a very popular choice among golfers of all levels, we wanted to introduce a new model for those players who seek a bag that is both lightweight and offers an array of features," said Craig Ramsbottom, President, The Bag Boy Company.

The Revolver Plus comes fully equipped with numerous golfer-friendly benefits including two convenient external putter clips; 11 compartments providing ample storage, including a large cooler pocket and a fleece-lined valuables pocket; a convenient divot repair tool pocket and two mesh side pockets for additional storage.
